In the period between 1955 and 1972 Fischer, more or less single-handedly, took on the might of the Soviet Chess Empire, and won. During this time Fischer scored astonishing successes the like of which had not been seen before. These included 11/11 in the 1963/64 US Championship and match victories (en route to the World Championship) by the score of 6-0 against two of the strongest players in the world, Mark Taimanov

and Bent Larsen. The climax of Fischer's campaign was his unforgettable match win in Reykjavik in 1972 against Boris Spassky.

In this book, a must for all serious chessplayers, Kasparov analyses deeply Fischer's greatest games and assesses the legacy of this great American genius.

The book also contains a marvellous compilation of the Polgar sisters' most stunning chess games and an analysis of the strict, but ultimately successful training techniques they used.

Susan Polgar is a genuine chess legend. The eldest of the three celebrated Polgar sisters, she's a 4-time Women's World Champion and a triple Olympic Champion

Mikhail Tal – Tactical Genius ©©

Alex Raetsky and Maxim Chetverik
128 pages, 234x156mm
1-85744-365-9, £12.99

Mikhail Tal was simply a chess phenomenon. The 'magician from Riga' stunned the chess world when he became the youngest ever World Champion (at that time) in 1960, and he won countless supporters for his scintillating tactical play and his infectious enthusiasm for the game. Tal's dazzling tactical style would often leave his hapless opponents in a state of 'shell-shock'. As former World Champion Vassily Smyslov once noted, 'Tal's appearance in chess had the effect of an exploding bomb, since his style of play was distinguished by extraordinary combinative brilliance.'

In this book Alexander Raetsky and Maxim Chetverik revisit Tal's brilliant victories. The authors have carefully picked his most famous and instructive games and combinations, ones which set the chess world alight with admiration. A study of this tactical genius is sure to entertain and benefit the aspiring chess student.

Alexander Raetsky is a Russian International Master and an experienced competitor on the chess tournament circuit. He's also a skilled writer and has been a frequent contributor to the famous Russian magazine 64 and the internationally renowned publication New In Chess. His first book for Everyman, *Meeting 1 e4*, was very well received by the chess-playing public.

Maxim Chetverik, also from Russia, is a FIDE Master and a renowned openings theoretician. Earlier works for Everyman include *English ...e5*, which he also co-authored with Raetsky.

Alex Raetsky and Maxim Chetverik
128 pages, 234x156mm
1-85744-372-1, £12.99

What separated Alexander Alekhine from the rest of his contemporaries? Why did he dominate the chess world for so long? The main reason was undoubtedly his brilliant attacking style of play. Alekhine had a combinative gift and thrilled the chess public and influenced every great chess player since. Garry Kasparov once said, 'I fell in love with the rich complexity of his ideas at the chessboard. Alekhine's attacks came suddenly, like destructive thunderstorms that erupted from a clear sky.'

In this book Raetsky and Chetverik take a look back at how Alekhine defeated his opponents in dazzling style. They carefully select and analyse some of Alekhine's most famous attacks and glorious combinations. A deep study of his games cannot fail to entertain and inspire any true chess fan.
